

12V Starter Kit

FROM \$3,990

Simple, modular power, ready for work or play...

Our entry level 12V package can be tucked away in any available space, and uses leading pre-fabricated reliable components from Hardkor.

Start with the 12V Control Hub and then spec out how much capacity you need. We'll guide you through each step to ensure your power needs will be met and fit your 12V gear during your install.

YOUR POWER OPTIONS
